Why
choose us?

An integrated learning experience

A perfectly balanced programme

Our students become immersed in Spanish language and culture, learn how people use the language in real life, how they speak to each other in the street and how they socialise. Students develop skills they can immediately use outside the classroom.

International and friendly atmosphere

Our students come from an ever-expanding number of countries, all with the aim of learning or improving their understanding of Spanish and our way of life. At the school you'll find an international and friendly atmosphere, perfect to use your new language skills to make new friends.

360° Spanish

Our immersion method involves students in a fun and enjoyable environment of 360° Spanish through well-designed classes and activities.

After class our social and cultural programme offers a wide range of activities that allow you to practise more Spanish and discover the true meaning of living the Spanish way.

Quality assurance

We are proud to be part of International House World Organization (IH), which has over 70 years' experience in improving quality in language teaching. We are also accredited by the Instituto Cervantes, which is committed to the universal promotion of quality in Spanish language teaching, and IALC – International Association of Language Centres. All IALC schools are quality assured, offering a commitment to professionalism, personalised attention, and an outstanding educational experience.

A modern school steeped in rich history

Our beautiful school occupies the Gothic “Palacio de los Fernández de Córdoba”, located deep in the heart of Valencia’s old town. We have carefully renovated this historical building to our own vision of a 21st century language school that complements history with modernism.

The school is placed just where the 11th-century Arab walls once stood. A large part of them have remained in the building, running through the school and inside the classrooms, creating an atmosphere of history and mystery.

If studying in a stunning location rich in history isn't enough, students can also enjoy exclusive use of our student common areas, relax on our popular patio or catch some rays on our breath-taking roof garden complete with sun loungers, orange trees, and showers to cool off in.

Our school is also the perfect launch pad to learn about the Spanish culture and gastronomy, there is even a purpose-built kitchen classroom for our cookery activities.

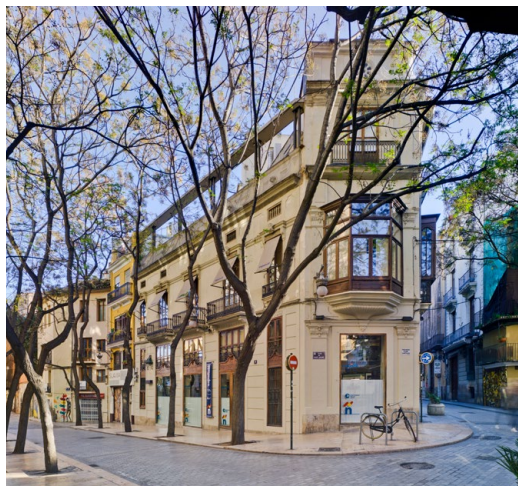

Located in a historical palace with over 2,000m² of space to enjoy while learning in a relaxed environment

Españolé is located on one of the main streets that runs through the district of El Carmen. Calle Caballeros is a hotbed of activity during the day and transforms at sunset into one of the main streets for nightlife in Valencia.

The school is surrounded by history and culture. You don't have to look far to discover world famous sights such as Plaza de la Virgen, which houses one of Valencia's most emblematic buildings – La Catedral de Valencia, where the Holy Grail is said to be kept.

With a plethora of great restaurants, cool shops, dazzling street art, superb museums and an eclectic mix of people, El Carmen offers something new and exciting every day for tourists and locals alike.

With its charming narrow streets, alleys, and plazas full of terraces, El Carmen has become Valencia's most famous and captivating neighbourhood.

A bit of
history

Your journey to us started almost 1,000 years ago...

Founded by the Romans in 138 BC, Valencia is one of the oldest cities in Spain and has been home to many civilizations that have left their footprints in the city. The history of the city of Valencia is typified in the story of three walls; the Roman, the Muslim and the Christian.

During the Muslim period from the 8th to the 13th century the city enjoyed a time of growth and splendour.

In AD 1020 a wall of cutting-edge design and precision was built to protect the inhabitants and, on this wall, quite literally, our school sits. The Muslim-era wall had seven doors and the most westerly of them, Bab al-Hanax (the door of the snake), included a 14-metre-high tower that still stands within our school, cutting through classrooms and overlooking the building.

After control of the city was returned to the Christians, Moorish Muslims were allowed to live outside the walls, next to the Bab al-Hanax entrance, in an area known as La Moreria, which is now part of the old town. The city remained within the walls until the mid-13th century, when the port began to help development of the areas between the old town and the beach.

The vibrant, multicultural Valencia we know today owes a lot to its roots in the old town and you will be adding to the history of so many who have walked our streets and enjoyed all Valencia has to offer. Over 1,000 years of history welcome you.

Inspirational lessons

Communicative, motivational, interactive, and enjoyable classes that will teach you how to use Spanish in real-life situations.

Your Spanish class

All classes are taught in Spanish. In general, the number of students per class is between 6 and 10 and each lesson lasts for 50 minutes.

You will have at least 2 different teachers so that you can get used to listening to different ways of speaking. Since the groups are small in number, the teachers are able to deal with each student on a more personal basis.

The classes are task-based and planned according to the students' needs and learning styles.

You will use a textbook along with supplementary materials and digital resources, making lessons very interactive.

You will also have full access to our online e-learning platform for 6 months from the moment you start your course.

A cultural approach

The programme also aims to integrate students into local culture. Visits to cultural centres, museums, other towns, etc., are arranged to ensure that all students are fully immersed in Spanish life.

Practical language learning

Our method combines traditional grammar and vocabulary learning with an innovative approach that focuses on fluent communication and interaction with students.

We place great importance on using the language in communicative contexts that reproduce situations you might come across every day.

Our teachers

We have a dynamic team of teachers who love teaching Spanish. They're all university graduates and have many years of experience specialising in teaching foreign students. They use modern materials and methods to ensure that lessons are interesting and engaging.

The ongoing professional development and training of teachers is a key feature of International House schools and our teachers stay up-to-date by incorporating new techniques and materials into their lessons whenever appropriate.

In addition to teaching Spanish in class, they will offer general support during your stay at the school so that you find learning Spanish a pleasant and hassle-free experience.

They can describe experiences in their past as well as explain and give reasons for their plans, desires and ambitions for the future. This level is divided into B1.1. and B1.2.

B2 - Upper-intermediate

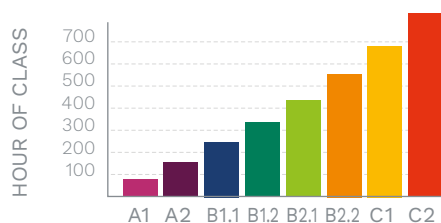

Students can express their ideas on general topics clearly in both the spoken and written form. They are familiar with, and can competently use, more complex structures, have a strong level of fluency, and a broader vocabulary, including idiomatic expressions. This level is divided into B2.1. and B2.2.

C1 - Advanced

Students are capable of understanding most lectures, discussions and debates. They are able to develop a well-structured argument with supporting evidence and explanations in oral and written form. Students have broadened their general language capability and vocabulary to feel comfortable operating effectively in social, academic and professional spheres.

University access

University pathway

A comprehensive programme for international students who want to study in Spain and need to pass the official PAU (Prueba de Acceso a la Universidad) exam. It provides academic preparation and full support to access Spanish universities or private vocational training centres.

Valencia is a leading academic city, home to the University of Valencia and the Universitat Politècnica de València (UPV), recognised for innovation, research and an international outlook. Valencia offers a safe and welcoming environment that attracts thousands of international students each year.

We work in conjunction with the Polytechnic University of Valencia (UPV)

UNIVERSITAT
POLITÈCNICA
DE VALÈNCIA

Official academic partnership with UPV

We maintain a close, operational partnership with the Polytechnic University of Valencia (UPV). This collaboration ensures that our students receive guidance fully aligned with the university's academic standards, administrative procedures and key subject requirements.

As a result, students benefit from accurate, practical and highly relevant support that helps them confidently plan and pursue their academic goals.

Start dates & duration

We offer flexible start dates to accommodate different student profiles. Language training is available from complete beginner level, although a minimum B2 level is required to start the academic preparation phase. Students may join the programme at various points throughout the year:

- **August – October:** Full programmes (32–40 weeks), ideal for beginner and intermediate Spanish learners.
- **January:** 20-week programme for students who already have a strong foundation in Spanish.

Note on access: University admission depends on each student's academic background. Some students may access university directly once their diploma is officially recognised. Others, especially those applying for highly competitive degrees, may need to take the official **PAU/PCE** university entrance exams.

What is the PAU/PCE exam?

The PAU is Spain's official university entrance exam, assessing academic maturity and knowledge equivalent to the Spanish Bachillerato. The final admission score combines exam results with upper-secondary grades and is essential for degrees with high entry requirements.

Exams take place in May/June, with an additional session in September. Our academic preparation runs until the end of May to ensure all candidates are fully prepared for the June session.

How does the course work?

A two-phase approach

1. **Intensive language phase:** The programme begins with intensive Spanish classes until students reach the B2 level.
2. **Academic specialisation phase:** After achieving B2, students progress to the academic stage, focusing on the PAU subjects that best match their intended degree. Students study 2 to 6 subjects and receive continuous assessments, personalised tutoring, exam strategies and mock exams.

What extra support is offered?

We provide full administrative and strategic support to ensure a smooth transition into Spanish higher education. Our services include:

- Personalised academic and career guidance.
- Expert support in choosing universities and degree programmes.
- Complete management of the application and enrolment process.
- Assistance with diploma recognition, sworn translations and apostille requirements.
- Continuous support through to successful university matriculation.

Language lessons

Classes focus on real-life communication, giving students practical skills they can use from the very first day, both inside and outside the classroom.

Students attend 20 lessons per week in small international groups, with a maximum of 12 students per class.

Classes may take place in the morning or follow a zig-zag schedule: on some days, students have lessons in the morning and activities in the afternoon, while on others the order is reversed. Either way, they enjoy a complete day of learning, activities and time with their international friends.

Our six levels range from beginner to advanced and follow the Common European Framework of Reference for Languages. Before arrival, students complete a placement test so we can find the class that best suits their level.

Our experienced teachers use dynamic activities, coursebooks and authentic materials to make lessons engaging, practical and adapted to the students' needs.

Summer Camp and Summer Getaway students may share some classes when they are studying the same language at the same level.

Activities and excursions

Valencia becomes an extension of the classroom through a varied programme of cultural visits, sports, creative workshops, beach activities and social events.

Students discover the city, experience Spanish culture and use their language skills naturally while sharing unforgettable moments with new international friends.

Each age group follows its own programme, accompanied by the Españolé team. Specialist activities are always led by qualified instructors.

Accommodation

Students can experience everyday life with a local host family or share their summer with other international students in our teen residence. Both options include full board, comfortable facilities and support from the Españolé team.

Host family

Living with a host family gives students the opportunity to discover the Valencian lifestyle and practise the language in everyday situations.

Students stay in double or triple rooms and are normally placed with another international student of a different mother tongue. Full board, Wi-Fi, bed linen, towels, weekly cleaning and laundry service are included.

Our families are carefully selected, and many have welcomed international students for several years.

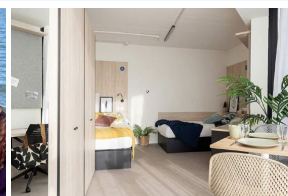

Teen residence

Our teen residence offers a safe and lively international environment close to the school and Valencia city centre.

Students stay in air-conditioned double or triple rooms with a private bathroom and study area. Single rooms may be available for an additional fee.

Full board, Wi-Fi, weekly cleaning, bed linen and towels are included. Students can also enjoy shared social areas, a gym, a terrace and self-service laundry facilities.

Residence staff are available 24 hours a day, while the Españolé team provides support and supervision adapted to each age group.

Supervision and safety

Our experienced team supports students throughout their stay and accompanies them during all organised activities and excursions. Water sports and other specialist activities are supervised by qualified instructors.

Students must attend lessons and scheduled activities, respect the programme timetable and follow the school's rules. Free time and curfews are adapted to each age group, allowing students to enjoy their independence.

Spend
a day
with us

Meet Arianna, our student from Italy. Get a glimpse of life at Españolé

08:45 Bus to school

My student apartment is only a few stops away from the school so sometimes I walk or use the Valenbisi bike system but today I decided to take the bus as it's really convenient, cheap and stops so close to the school!

19:00 Afternoon activity

I was really surprised by how much there was to do every week. Several activities are included, and there are plenty of optional activities and weekend trips to choose from too.

09:10 Spanish classes

Going to class is a pleasure as I get to see my new friends and the teacher knows how to make learning fun. My classmates are from all over the globe and our teacher, Juan, has actually travelled to most of our countries!

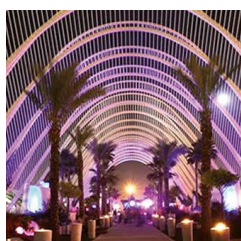

21:00 Life at my new home

I live with a Japanese girl and a boy from Denmark and we are all very happy and comfortable together. The apartment has plenty of space and we have everything we need in the area. We like to go to dinner three times a week but we also take turns cooking food from our countries for each other. It's a fun way of learning names in Spanish for foods and ways of cooking!

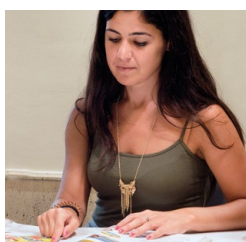

14:00 Lunch

Lunchtime is the perfect opportunity for us to practise much of what we learn in the classroom. There seems to be an endless number of options in El Carmen and I found all the waiters to be so nice and friendly. I love the food too so I am always looking forward to lunch!

22:00 Valencia nightlife

I think I could live here for years and still discover funky little bars, casual looking restaurants that serve amazing food and there seems to be a local neighbourhood fiesta every day somewhere! My Japanese housemate loves flamenco and live music so she is always finding new places for us to go. There just aren't enough nights in the week!

16:30 Homework

This time last week I had classes in the afternoon, which meant I would do my homework while enjoying coffee and breakfast on a terrace. Now that I have morning classes I enjoy doing it with my merienda instead! The homework is carefully planned by the teachers and everything flows nicely so you actually want to do it and be ready for class the next day.

Valencia is a vibrant, cosmopolitan city with about 800,000 inhabitants enjoying its majestic buildings and wonderful scenery

What to do?

Enjoy an abundance of parks and gardens

Valencia is not only a city of culture but also a city with beautiful parks, gardens and relaxing recreational areas. The old riverbed has been converted into a 9 km park that snakes through the city and is perfect for all kinds of activities such as cycling, jogging and skating. There are also many relaxation spots along the park and dotted throughout the city so no matter where you are you'll find something close by.

Enjoy Valencian gastronomy and nightlife

The city has a seemingly never-ending supply of bars serving high-quality tapas. There are, of course, many restaurants serving classic Valencian cuisine such as the famous paella, but you'll soon discover real locals prefer Fideuà, which is also a must-try! Valencia is famous for its nightlife and there are many lively areas and places to go to suit all tastes and styles.

Where history meets modernism

A truly stunning Mediterranean city, Valencia enjoys a mild temperate climate and offers a wealth of gastronomic delights, festivals and cultural events to enjoy. You will see how important historical traditions and recent innovative architecture stand side by side and complement each other, the city and the people perfectly. In the last two decades Valencia has undergone an amazing transformation that needs to be seen to be believed.

- 1. The Lonja:** one of the best examples of Gothic civil architecture in Europe, a UNESCO World Heritage Site.
- 2. The Central Market:** one of the many places not to be missed. This colourful, bustling lively market, in a beautiful modernist building, will entice you to buy far more than you intended to.
- 3. The Cathedral:** each of its three gates has a different style: Baroque, Gothic and Romanesque. From its bell tower, El Miguelete, you can enjoy amazing views over the city.
- 4. Plaza de la Virgen:** sits on the site that was once the Roman forum.
- 5. Torres de Serranos:** considered to be the largest Gothic city gateway in all of Europe.
- 6. The Fine Arts Museum San Pío V:** one of the most outstanding painting collections in Spain.
- 7. The National Ceramics Museum Gonzalez Marti:** housed in a palace from the 15th century and refurbished in 1740 in rococo.
- 8. The City of Arts and Sciences:** this amazing complex includes five buildings which are breathtaking at first sight. They are simply incredible.
- 9. Jardín del Turia:** The former river has now been transformed into a park, where locals walk, run, sunbathe and cycle.
- 10. Valencia Bioparc:** The animals live in a natural habitat in this 21st-century version of a zoo. Explore the ecosystems of the savannah, the forests of Madagascar and equatorial Africa, while getting up close to silverback gorillas, leopards, lions, rhinos, hippos and some very cute meerkats.
- 11. El Mestalla:** Valencia CF, or Los Che as they're known locally, are a giant of the European game. La Liga winners twice at the start of the 2000s and enjoying a recent resurgence they're known for their entertaining style of play.
- 12. Tapeo:** Translated as walking around different bars enjoying their drinks and tapas – and we recommend doing just that!

Go to the beach for most of the year

It's not uncommon for us to have temperatures near 20°C during January and while that may not be sunbathing weather it doesn't mean you can't enjoy a stroll on the beach! Wide-open beaches filled with golden sand are lined with palm trees, bars and restaurants that are frequented by locals and tourists alike 12 months of the year.

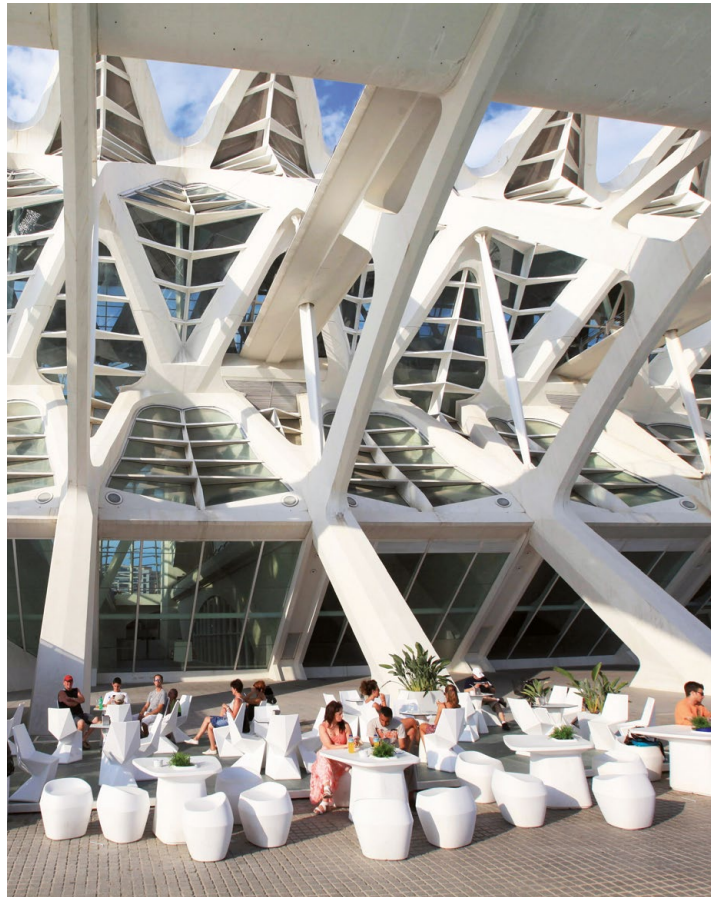

Live traditions and festivals

The most popular festival in Valencia, Las Fallas, takes place in March and for most of the month fireworks can be seen and heard all over the city. The sound of band music and the impressive mascletàs turn the city into a place to behold: a complete transformation that precedes spring every year.

Enjoy the city events

Valencia is a city that is always alive. Throughout the year you'll find international sports, music festivals, concerts, cultural celebrations and major events that bring an extra energy to the city.

All this, together with more than 300 days of sunshine per year and people who are open-minded and friendly, make Valencia the ideal place in which to spend a memorable study holiday.

If you have booked your accommodation with us, we will send you the complete details and information on how to get to your accommodation at least two weeks before your arrival.

Transfer Service

We can arrange your transfer on arrival at Valencia airport, train or bus station and also your departure. To guarantee the transfer we need to know your arrival details (date, time, place, and flight number) at least one week before arrival.

At the time of booking, we will send you an online written test which should be completed at least one week before coming. Then, on the first school day you will only need to take the speaking part.

After testing we will have a "Welcome meeting" where students can meet each other, our staff and receive useful info about Españolé and Valencia itself. Once the test and orientation are complete you will receive your book and class schedule so you can start your first lesson.

In the afternoon we arrange a guided tour of the city for all new students. We highly recommend joining as it will help to familiarise yourself with your new home and you will have opportunities to practise what you learnt in class and get to know your classmates better.
